PRESS RELEASE

FOR IMMEDIATE RELEASE

8 Souls Publishing™ Launches the Artist Spotlight Series to Elevate Emerging Voices and Creative Justice

New York, NY — January, 2026— 8 Souls Publishing™, the independent, advocacy-driven creative house founded by author and cultural strategist **Donna Alexander-Brooks**, proudly announces the launch of its **Artist Spotlight Series**—a new storytelling initiative designed to honor, amplify, and protect the creative legacies of emerging artists.

The Artist Spotlight Series is a curated, portrait-style showcase that highlights artists across disciplines who are shaping culture through truth-telling, innovation, and resilience. Each feature offers an intimate look into the artist’s journey, their creative process, and the justice-centered values that guide their work.

“At 8 Souls Publishing™, we believe artists are architects of memory and carriers of generational truth,” said Donna Alexander-Brooks, Founder and Editor-in-Chief. “This series is our way of saying: *We see you. We honor your work. And your story deserves to be protected, celebrated, and shared with intention.*”

The series aligns with the company’s broader mission to equip creators—especially those navigating systemic barriers—with the tools, clarity, and community support needed to safeguard their art and claim their legacy. It also builds on the momentum of the **8 Souls Music Registration & Publishing Kit**, a resource that demystifies the business side of artistry for independent musicians.

The Artist Spotlight Series will feature:

- **Portrait-Style Visual Profiles:** Soul-forward imagery that captures the essence, energy, and creative identity of each artist.

- **Story-Driven Interviews:** Conversations that center the artist’s lived experience, creative philosophy, and justice-rooted purpose.
- **Legacy-Building Insights:** Practical guidance on protecting intellectual property, navigating publishing pathways, and sustaining creative careers.
- **Community Amplification:** Cross-platform visibility to help emerging artists expand their reach and connect with aligned audiences.

The first round of spotlights will debut on the 8 Souls Publishing™ website and social channels, with new features released throughout the year.

“This series is more than content—it’s a cultural archive,” Alexander-Brooks added. “We’re building a space where artists can stand in their power, be witnessed, and know their work matters.”
