

## LED Panel Light # PAN

## SPECIFICATION INFORMATION

|                              |                                   |
|------------------------------|-----------------------------------|
| LED Brand                    | SMD 3030                          |
| Driver Brand                 | Meanwell                          |
| Dimming                      | 0-10V                             |
| Beam Angles Available        | 110°                              |
| Ingress Protection           | IP20                              |
| Installation                 | Surface                           |
| Finishes available (colors)  | White                             |
| Power consumption            | 30w                               |
| Input Voltage                | 110 / 220 VAC, 50/60HZ            |
| Color Temperatures Available | 3000K, 4000K, 5000K, 5700K, 6500K |
| Luminous efficiency          | ≥120LM/W                          |
| CRI                          | 80+                               |
| Dimensions                   | 595mm x 595mm (13mm thick)        |
| Warranty                     | 5 years                           |
| Certifications               | UL, ETL, CE                       |

## ORDERING INFO

| BASE PART # | COLOR TEMPERATURE                 |
|-------------|-----------------------------------|
| PAN-        | 3000K, 4000K, 5000K, 5700K, 6500K |

EXAMPLE OF COMPLETE PART #: PAN-4000K
