

# MULTI-WAY COMPRESSION CAPRIS (SPRING /SUMMER 2019)

## INSPIRATION

When I was in my Ph.D., I met a Triathlon runner who is an amputee and she discussed the athletic wear she tended to gravitate toward. After being exposed to this need in the industry and recognizing how hard it can be for disabled athletes to get practicing, let alone trying to combat the rain. I noticed the need to create practice clothing for these dedicated athletes

## Target Customer

- Men and women 18-40 years of age
- Multiple range of disabilities
- Participating in paralympic sports where one might practice outdoors
