## Micro Planner X-Pert

Micro Planner X-Pert is a powerful project management program, developed to enable you to take full advantage of the power of the project management technology. Newcomers can use it and it offers sophisticated facilities to delight even the most discerning project manager.

A prime object in the design of the software is to provide a simple and efficient man-machine interface. We believe that you will find it the most responsive project management tool that you have ever used. It follows a logical methodology, is friendly and intelligent, knows its facts and is quick to appreciate any potential problems in your project.

Whatever your present planning tool - computer, pencil and paper or guesswork, Micro Planner X-Pert will enhance your planning capabilities and productivity. Control of even the smallest project can be dramatically improved - even the process of entering the model into the computer can help you refine and understand your objectives.

With Micro Planner X-Pert you can present even the most complex project in the form of a clear and concise visual model, and then interpret that model to control resources, monitor progress, control costs using EVPM analysis efficiency.

Q: What do all these have in common?

A: They were either maintained or built using Micro Planner X-Pert for Windows

Construction of Collins Class Submarines in Adelaide Australia, Jan 1990 - 2004

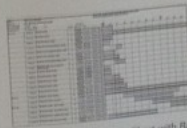

Maintenance of RAAF F111s Australia 1988 - 2010

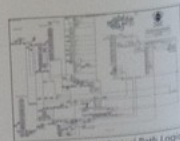

Otago Prison Construction New Zealand 2005 - 2007

Updated EVPM Schedule Showing Baseline & Earned Value Performance Plus Pie of Hours by Zone

Statused Summary Gantt Chart with Baseline and Progress Gantt Bars

Typical Precedence Critical Path Logic Diagram, showing progress of tasks

Award winning Project Management software providing Time Analysis, Multi Sub Project Resource scheduling and Earned Value Performance Measurement as per EAI-ANSI 748-C and AS4817:2006. Many thousands of large and small projects worldwide have been managed successfully using X-Pert for Windows Graphics-driven Project Management.
