July/August

July and August are going to be part one and two of the next meeting topic. We will be watching a two-part webinar on bacterial and fungal infections in orchids.

We will also be doing a plant table as usual.

Important Meeting Information

There is a concert at the amphitheater the same evening so parking is going to be a little tricky. We have made arrangements with the gardens to have some spaces reserved for members.

Very Important: When you arrive, please put your flashers on so the staff directing cars knows you are here for the meeting and directs you to the appropriate location. The garden doors will also only be open between 6:30 and 7:30 for us.

For those who missed the last even at New World Orchids, Ecuagenera is participating in another even at the Rare Plant Fairy in August. It looks like it could be a good time with 20 additional vendors. Note that the bulk of the vendors will most likely have popular foliage house plants. Ecuagenera will bring a mix of both. They will also accept pre-orders off their website for pickup at this event.

Society News

We need people who are willing to bring snacks to the meeting. They don't have to be anything elaborate, just some munchies and finger food. If necessary, we will go back to a snack schedule.
