Our Partners

Vetsource: CCAH's partnership with Vetsource® means you can order quality prescription medications, food and health care products sourced directly from the manufacturer and have them shipped right to your front door.

AutoShip allows you to schedule regular deliveries of your pet's medications and food at your convenience. And with RemindMe, single doses of your pet's flea, tick and heartworm preventatives arrive once a month when you need them — with no shipping charges!

[Click here for more information, or to access your Vetsource® account.](#)

Animal Hospital of Chester County: Visit CCAH's sister hospital, [The Animal Hospital of Chester County](#), located at 1353 Pottstown Pike in West Chester, PA.

Team

Veterinarians

Lauren Jones, VMD

Dr. Jones is the proud owner of CCAH. She graduated from the University of Pennsylvania School of Veterinary Medicine and has been at CCAH since 2010. Dr. Jones provides medical and surgical services for dogs, cats, and exotic pets including rabbits, ferrets, pocket pets, reptiles, and amphibians. She especially enjoys reproduction and pediatrics, ultrasonography, wellness care, and preventative medicine. Dr. Jones is also the owner of the Animal Hospital of Chester County, our sister hospital located in West Chester, PA.

www.ahccvet.com

Morgan Agnew, VMD, DACT

Dr. Agnew graduated from the University of Pennsylvania School of Veterinary Medicine in 2013. Following graduation, she spent two years at Rood and Riddle Equine Hospital in the ambulatory department, spending a majority of her time managing pregnant mares, foals and yearlings. In July of 2017, she completed a two year residency in reproduction at the University of Pennsylvania and became board certified in theriogenology. Dr. Agnew joined CCAH in August of 2017. We are excited to welcome her to our family!

Casey Kurtz, VMD

Dr. Kurtz graduated from the University of Pennsylvania School of Veterinary Medicine and has been at CCAH since 2010. She is particularly interested in surgery and dermatology, and continues to explore non-surgical and supplemental treatments for common orthopedic and arthritic conditions through the use of stem cells, and platelet-rich plasma.

Carla Narducci, VMD

After successfully owning and operating CCAH until 2015, Dr. Narducci continues to practice on a part-time basis at CCAH. After graduating from the University of Pennsylvania in 1987, she began to pursue an interest in reproductive medicine. She then expanded into other services including freezing semen, semen storage, transcervical inseminations and fertility evaluations.

Amanda Wanner, DVM

Dr. Wanner graduated from the University of Illinois, College of Veterinary Medicine in 2014. After practicing medicine in an animal hospital in State College, PA last year, she is excited to be returning to her hometown to work at CCAH! She is most interested in exotic animals, internal medicine, and dentistry.

Scarlette Gotwals, DVM

Dr. Gotwals graduated from the Ohio State University School of Veterinary Medicine. She, in tandem with Dr. Narducci, developed CCAH's reproductive services, and continues to perform reproductive consults both nationally and internationally. See what Dr. Gotwals has been up to recently!

Support Staff

CCAHA has an excellent team of veterinary technicians, receptionists, and kennel assistants. Our experienced staff of trained professionals are here to provide an outstanding experience for you and your pet.

Learn More About Us

For over 20 years, Country Companion Animal Hospital has provided high quality veterinary care to our patients in Twin Valley and surrounding areas. In addition to general practice for canine, feline, and exotic pets, we are internationally-renowned specialists in canine reproduction. [Find out more.](#)

Our Services

For over 20 years, CCAH has provided high quality veterinary care to our patients in the Twin Valley area - Morgantown, Elverson, Honey Brook, and beyond. Our experienced team is committed to keeping your pets healthy and happy. We understand the special bond that our customers have with their pets, and we strive to treat them as part of our family!

Wellness Care

Well-care examinations are the cornerstone of health care for your pet. Prevention is far easier, less costly, and safer than long term treatment. Routine physical examinations, up-to-date vaccinations, routine testing, and ongoing discussions of your pet's health allow the doctors at CCAH to ensure your pet stays healthy, and to catch minor problems before they become major problems.

Sick Care

We understand the concern you feel when your pet is feeling ill. As part of our commitment to providing compassionate care, we'll perform a thorough assessment of your pet, and give you all the options available to diagnose and treat illnesses to get your pet back to great health!

Reproduction

CCAH is a world-renowned canine reproduction facility. Our team has helped breeders both locally and internationally successfully manage breeding from beginning to end, using the latest in reproduction techniques. We are proud of our long track record of success, and our team, including board-certified reproduction specialists. [Visit our reproduction page for more information.](#)

Dentistry

Dentistry is a critical, often over-looked part of health care for your pet. Routine cleanings are needed to maintain the overall health of your pet. Additionally, a pet with dental disease is not only in pain, but is also at risk of developing serious diseases of the entire body. CCAH is pleased to provide routine care of your pet's teeth and to treat diseases of the mouth, gums, and teeth. [Learn more about maintaining your pet's dental health.](#)

Surgery

If surgery is recommended, we perform a comprehensive pre-surgical examination, including testing to assess your pet's health and ensure the best possible outcome. Some of the procedures performed at CCAH include:

- Spays and Neuters
- Tumor removal
- Biopsy
- Abdominal procedures
- Orthopedic procedures
- Exploratory surgery
- Dew-claw removal
- Ear flushing and surgical care

After surgery, pets are closely monitored by the doctors and staff. Round-the-clock monitoring is available at local emergency facilities. In addition, the doctors maintain close relationships with surgical specialists in the area. If necessary, patients can be referred to local specialists for care.

Pharmacy and Lab Services

We have an on-site pharmacy supplied with prescription medications for preventive care and treatment of illnesses. We stock a wide range of veterinary drugs are stocked to ensure that the medication your pet needs is immediately available. This allows for rapid filling of needed prescriptions. In addition, the hospital stocks a complete supply of prescription foods needed to treat diverse illnesses such a kidney, cardiac, and intestinal disease. For the convenience of our customers, we've partnered with Vetsource to provide home delivery of foods and certain medications. [Please visit our Vetsource site for more information.](#)

In addition, CCAH uses both in-house laboratory equipment and commercial testing services to provide comprehensive testing and rapid results. Routine testing for blood counts and chemistries are done with state-of-the-art equipment in the hospital and are available within hours. Other test results are usually available within 24 hours.

Exotic Pets

Our doctors and staff are experienced in caring for many types of exotic pets and are pleased to be able to offer care and guidance.

We treat a variety of exotic pets, including small mammals and reptiles.

Please be advised that not all of our staff members are experienced in caring for exotic pets, so it is strongly advised to call ahead to our office to schedule an appointment when our staff members with exotics experience are available.

Sick Care

We understand the concern you feel when your pet is feeling ill. As part of our commitment to providing compassionate care, we'll perform a thorough assessment of your pet, and give you all the options available to diagnose and treat illnesses to get your pet back to great health!

Microchips

Our doctors recommend that all cats and dogs receive identification microchips. These chips are tiny, rice-sized devices that contain valuable identification information to help your lost pet find its way home. During an office call, the chips are easily implanted under the skin and remain as a permanent means to identify your pet if lost. The chips are readable with a small hand-held scanner that allows the information to be retrieved rapidly and lets your pet be traced back to your home. Most veterinarians and animal shelters routinely scan for microchips, so your pet has a much better chance of being returned to you if the animal carries a microchip.

Health Certificates

Our licensed and USDA-accredited veterinarians are qualified to examine animals requiring health certificates for travel or sale. The doctors can then issue the specialized certificates needed for selling or transporting pets. It is important to have a healthy pet when you are traveling or planning on selling your pet(s). If you have any questions about obtaining a Health Certificate for your pet(s), please contact us directly.

Reproduction

CCAH works with breeders all over the world to provide a full range of canine reproduction services, including:

- Ovulation Timing and Breeding
- Physical exams
- In-house progesterone tests
- Vaginoscopy
- LH testing
- Breeding via artificial insemination, transcervical insemination, and surgical insemination
- C-Sections
- On-site semen collection and frozen storage

The veterinarians at CCAH also perform reproduction consults, semen evaluation and help to manage other reproduction-specific conditions. We routinely freeze and store semen onsite that can be used months or even years later. To find out more, [download our reproduction overview](#).

Community

Twin Valley Community Education Foundation

The Twin Valley Community Education Foundation supports Twin Valley schools, students, and the community by providing financial support to school programs and projects, scholarships to students, and classes and events to the community. In the past 6 years, TVCEF has awarded over \$100,000 to Twin Valley school programs and scholarships! CCAH is a longtime supporter of TVCEF. To learn more, please visit www.tvcef.org

Morris Animal Foundation

Morris Animal Foundation works to improve and protect the health of animals through scientific innovation, education and inspiration. CCAH is proud to provide ongoing support to the Foundation, and its commitment to fight animal diseases worldwide in species ranging from cats and dogs to horses and alpacas; amphibians and wildcats to anteaters and elephants. Visit Morris Animal Foundation at www.morrisanimalfoundation.org.

LaMancha Animal Rescue

LaMancha Animal Rescue a no-kill rescue, located in Unionville, Pennsylvania that was originally formed as an alternative to the slaughterhouse for ex-racehorses. LaMancha Animal Rescue is the only federally recognized Karelian Bear Dog Rescue. Today LaMancha rescues and finds homes for not only horses but also dogs, cats, goats and the occasional exotic animal that requires more space or specialized knowledge than most SPCAs can offer. CCAH provides ongoing support to the LaMancha Animal Rescue. Please visit www.lamanchaanimalrescue.org.

Caitlin Robb Foundation

CCAH is proud to provide ongoing support to the Caitlin Robb Foundation. To date, the foundation, through its Arizona and Delaware Valley chapters, has combined to gift over \$1.9 million to children's cancer research and patient need programs. We encourage you to visit www.caitlinrobbfoundation.org to learn more about its mission to continue the search for cures for all forms of pediatric cancer and to assist children and families in need.

Brandywine Valley SPCA

Founded in 1929, the Brandywine Valley SPCA exists to end animal suffering and to involve the entire community in the welfare and well-being of animals. CCAH provides ongoing support to the BVSPCA. Please visit bvspca.org for more details.

Detailed Report

Document

Rule Name	Status	Description
Accessibility permission flag	Passed	Accessibility permission flag must be set
Image-only PDF	Passed	Document is not image-only PDF
Tagged PDF	Passed	Document is tagged PDF
Logical Reading Order	Needs manual check	Document structure provides a logical reading order
Primary language	Passed	Text language is specified
Title	Passed	Document title is showing in title bar
Bookmarks	Passed	Bookmarks are present in large documents
Color contrast	Needs manual check	Document has appropriate color contrast

Page Content

Rule Name	Status	Description
Tagged content	Passed	All page content is tagged
Tagged annotations	Passed	All annotations are tagged
Tab order	Passed	Tab order is consistent with structure order
Character encoding	Passed	Reliable character encoding is provided
Tagged multimedia	Passed	All multimedia objects are tagged
Screen flicker	Passed	Page will not cause screen flicker
Scripts	Passed	No inaccessible scripts
Timed responses	Passed	Page does not require timed responses
Navigation links	Needs manual check	Navigation links are not repetitive

Forms

Rule Name	Status	Description
Tagged form fields	Passed	All form fields are tagged
Field descriptions	Passed	All form fields have description

Alternate Text

Rule Name	Status	Description
Figures alternate text	Passed	Figures require alternate text
Nested alternate text	Passed	Alternate text that will never be read
Associated with content	Passed	Alternate text must be associated with some content
Hide annotation	Passed	Alternate text should not hide annotation
Other elements alternate text	Passed	Other elements that require alternate text

Tables

Rule Name	Status	Description
Rows	Passed	TR must be a child of Table, THead, TBody, or TFoot
TH and TD	Passed	TH and TD must be children of TR
Headers	Passed	Tables should have headers
Rowspan	Passed	Tables must contain the same number of columns in each row and rows in each column
Summary	Skipped	Tables must have a summary

Lists

Rule Name	Status	Description
List items	Passed	LI must be a child of L
L1 and LBody	Passed	L1 and LBody must be children of LI

Headings

Rule Name	Status	Description
Appropriate nesting	Passed	Appropriate nesting
