During a large scale emergency or disaster, emergency service personnel may not be able to reach everyone right away. A disaster could strike when parents are at work and children are at school or involved in social activities. Would your family members know what to do? Learn how to prepare for, respond to, and recover from local disasters. This class is intended for family members, age 16 and older. Protect your family, assist your neighbors, and help your community before, during, and after a disaster.
