Wendy Lang, founder and owner of Southlake Concierge

According to Wendy Lang, she has the best, most rewarding job. As the founder and owner of Southlake Concierge, Wendy and her dedicated team have the honor of working with amazing clients to help families find balance in their busy, hectic lives.

As a lifestyle and home management company, Southlake Concierge helps families streamline their lives and their homes by offering assistance with a wide range of services. From day-to-day

errands, home management, scheduling appointments, waiting for home maintenance repairs, to personal shopping, managing projects, locating that hard-to-find handbag, decorating for the holidays, and more, Wendy and her team go above and beyond to handle those pesky to-do lists so their clients can get back to doing the things that matter most. According to Wendy, "We don't do it all, but just about."

Whether it's growing a business or taking back the weekend, there is

value in delegating to a personal concierge. "Clients feel comfortable and confident entrusting our team with their home, family, personal, confidential and security matters," explains Wendy. "Clients not only use our
