Circle The Wolves

Fronted by a powerhouse vocalist, Circle the Wolves combines metal with an orchestral and piano style, heavy on wavetable synthesis to complete a total sonic experience. With virtuoso leads, and complicated chord structures found in most classical music, overlaid by unique vocals and harmonies, the listener isn't even aware of the complexity of the music supporting the female led band. Coupled with a unique stage show, Circle the Wolves is truly a diamond in the gothic-metal scene.

Our Music

We currently have 4 full albums complete. We write a new song every Wednesday. We have been covering some amazing songs "Chandelier" originally done by Sia We have also covered "Unwanted" originally done by Avril Lavigne. We have over 30 original songs and making more weekly! We have a unique stage show with video and more.
