

One in millions

-CHRISTIAN B

#oneinmillionfight

WE NEED YOUR HELP

Christian has been battling a cancer known as Subcutaneous Panniculitis like T-Cell Lymphoma. It's so rare, that it's a 1 in 1,000,000 chance of getting it. As of right now the only known cure is a bone marrow transplant.

YOU COULD BE THE CURE

To possibly be a match to Christian you would need to be the same ethnic ancestry (Hispanic), between 18-40 years old, & meet health criteria. If you don't match to Christian specifically there are so many other people also searching for their miracle.
