Shooting from Concealed

\$90/3 hours

This class IS NOT A BEGINNER CLASS. If forced to draw your gun in self-defense, you must know EXACTLY what to do next. It's about making the right decisions and being prepared. This class will teach you the things to consider when you decide to carry concealed, when drawing from your concealed holster, purse, backpack, or however you carry concealed. You will put into practice all the drills you have learned in LEVEL II Handgun Class, and DRY FIRE Training Class and begin to "Shoot from Concealment".

Dry Fire Training

\$40/2 hours

This training involves NO LIVE FIRE. Are you prepared to shoot under stress? There are some things that you don't have time to think about in a high stress situation. This class will prepare you for just that. If you want to shoot effectively under stress, your gun handling & shooting must be automatic. A conditioned response. A reflex. Instinctive. Hardwired. And that's why an effective DRY FIRE TRAINING PROGRAM is so vital.

CCW Class

This class meets the requirements for those wanting to obtain their Concealed Carry Permit. Regardless of if you choose to get your permit or not, the education provided is beneficial for all Responsible Armed Americans. NO LIVE FIRE, classroom only.
