

# STUDY CLUB RDH

You're invited to join our Dental Hygiene Study Club—a supportive space to connect with fellow hygienists, share knowledge, and grow together professionally.

## Scaling Up!

### Increasing your effectiveness, efficiency, and ergonomics

Objectives:

- Identify the ideal characteristics that create an instrument that is ergonomic
- Learn about new instruments that allow you to increase your efficiency and effectiveness in patient care
- Be able to identify when you need to replace instruments
- Learn the gold standard in caring for dental implants

**Presenter: Lisa Baker, RDH, BS**

PDT (Paradise Dental Technologies) Director of Special Markets – North America

*With over two decades of dedicated experience as a Dental Hygienist, Lisa Baker, RDH, BS is a seasoned professional known for her unwavering commitment to excellence and passion for continuous learning. As a highly respected Dental Hygienist, she has served as a catalyst for positive change within the dental industry, inspiring fellow dental professionals through her knowledge, expertise, and engaging speaking engagements. Lisa Baker is driven by a deep-seated desire to elevate standards and empower dental professionals to continue to grow and evolve.*
