The PTI vision is a principle based upon the Medina Charter based upon our great leader Prophet Mohammed (PBUH) advocating justice by embracing the egalitarian society with the rule of Law and economic justice system. The vision steers us towards a welfare state with the intention of enhancing the following areas: transform governance, strengthen federation, inclusive economic growth, uplift Agriculture, build dams and conserve water and ensure Pakistan National security.

The question we must ask ourselves how do we implement a NAYA PAKISTAN with the intention of providing a stern framework in which a Positive systematic organisation's can flourish towards the above PTI goal orientated targets expressed within the manifesto. To do this we must establish a model for the concept of a NAYA PAKISTAN with a later developed process in which an Overseas Pakistani Operational Platform can be formulated.
