

COLLECTION PACK AUTOMOTIVE 2025

FOR MORE THAN 60 YEARS, A COMPANY LOOKING TO THE FUTURE

Since 1963, we have been a leader in the global market of welding, plasma cutting, spot welding, battery chargers and starters. Our method is unique, focused on continuous innovation and constant research into absolute quality: this is Made in Telwin, our guarantee.

We proudly export the excellence of MADE IN ITALY to over 120 countries across all 5 continents. Our production is entirely based in Italy—a symbol of quality, tradition, and innovation.

PRODUCTS

APPROVED BY

BODY SHOP REPAIR SOLUTIONS

Innovation, Precision, and the Excellence of Made in Italy

Specialists in advanced repair tools and equipment for modern collision centers.

MADE IN ITALY, UNCOMPROMISING QUALITY

We are experts in body shop repair, with decades of experience and a deep understanding of the real-world challenges faced by professionals in the field.

What We Offer:

- A complete catalog of innovative, high-performance tools.
- Precision engineering and ergonomic design.
- Solutions tailored to aluminum, steel, and mixed-material repairs.
- Full-service support: consulting, training, and after-sales care.

Our Strengths:

- Made in Italy production;
- Hands-on demonstrations and expert advice;
- Long-lasting, technician-approved products.

Discover the full range at www.telwin.com or contact our U.S. sales team today for precision body shop repair.

BATTERY PULLER
Power 2800 A max

BATTERY PULLER

828130

BATTERY PULLER

- Lithium battery portable spotter for straightening steel sheets.
- Digital control with synergic variation in welding parameters based on type of work.
- Interchangeable and rechargeable LiPo4 battery.
- Integrated earth. 20mm sheet metal cleaning area.
- Light, easy to manage, it offers a secure grip in all work positions.
- Part of the SMART REPAIR range, products designed to increase the efficiency and quality of bodywork.

SMART REPAIR TROLLEY DELUXE

- Compact and robust workstation for quick repairs on steel and aluminium, with 6-drawer design and 4 swivel castors, ideal for maximising space and mobility in the workshop;
- Extensive tool kit for sheet metal straightening and glue repairs (PDR), with additional accessories such as a heat gun and pneumatic grinder;
- Perfect for those who want to tackle a wide range of repairs efficiently, while maintaining precision and speed in the process;
- It ensures time optimisation and smooth work management, improving workshop organisation;
- Made of durable materials, it offers durability and reliability even with intensive daily use.

/ IDEAL FOR DIAGNOSTIC OPERATIONS

Compensates power demands up to 120 A

/ POWERS VEHICLES IN THE SHOWROOMS

01.

8-phase Pulse Tronic charging and maintenance, with dedicated curves for different battery technologies (WET, GEL, MF, AGM, Pb-Ca, EFB, Li).

02.

Support for all diagnostic activities up to 120 A, with voltage adjustable extremely precisely according to manufacturers' recommendations.

03.

Power source for supplying vehicles displayed in showrooms.

04.

Tester to verify the starting capacity, the battery charge status, and the proper functioning of the vehicle's alternator circuit.

07.

Starting aid.

06.

Restoration of proper battery functionality through desulfation and equalization.

05.

Maintenance of the vehicle's electronics power supply during battery changes to prevent loss of settings.
