

A No-Cost Energy Efficiency Program Available to Select Eligible Customers

Ready for new, more efficient appliances and a more comfortable home?

The Energy Savings Assistance (ESA) Whole Home program is offered by Southern California Edison (SCE) and Southern California Gas Company (SoCalGas) to help eligible homeowners and renters make energy-saving upgrades to their homes. The best part is that there is no cost to you as a participating customer for any of the upgrades made through the program.

What's Offered

If you meet eligibility requirements, you may receive these upgrades at no cost. The program covers all equipment and installation costs.

- **New, energy-efficient appliances** including refrigerator, freezer, dishwasher, and clothes washer.
- **Heating and cooling system upgrades**, such as furnace repair or replacement, heat pump, central A/C, or room A/C replacement, or installation of an evaporative cooler or portable A/C, and repair or replace duct work and duct sealing.
- **Improved building insulation**, including adding attic, floor, and wall insulation, weatherstripping, and caulking.
- **Double pane windows**
- **Hot water heater upgrade**
- **High-performance cool roof**
- **LED Lighting**
- **Smart thermostats**
- **And more!**

Eligible customers may receive home upgrades worth up to \$25,000 at no cost.

How the Program Works

There are four stages to program participation. MAROMA Energy Services and our network of authorized contractors will manage your approved home upgrades.

Step 1. Let Us Know You're Interested!

Submit an online interest form at maromaesa.com

use the access code: **01010000**

or call 833-367-5497

Step 2. Qualification and Home Assessment

To be eligible, the household must meet income and eligibility guidelines. After qualification, a MAROMA Energy Services team member will conduct an energy assessment of your home to find where it may waste energy and, if it qualifies, identify solutions to make your home more energy efficient.

Step 3. Service Delivery

The MAROMA Energy Services team will help you schedule work to be done on your home. Installations and services will be completed by authorized licensed contractors.

Step 4. Inspection

The program will perform a project inspection to ensure you are satisfied and that installed equipment and services are functioning properly.

How to Qualify

To be eligible for the ESA Whole Home program, you must meet these qualifications:

- Be an active residential customer with individually metered accounts for both SCE and SoCalGas in Los Angeles, Riverside, or San Bernardino County.
- Be a homeowner or renter living in a mobile or single-family home.
- Meet income eligibility guidelines, details at maromaesa.com
- Your home must meet service-specific eligibility criteria for each service you receive.

How the Program Works with Renters and Landlords

Both renters and homeowners are encouraged to participate in the ESA Whole Home program. When you participate as a renter, MAROMA Energy Services is required to obtain the property owner's approval before any work can begin. Property owners will be asked to fill out an authorization form.

Get professional, energy efficiency upgrades at NO COST.

To get started, complete an online interest form at www.maromaesa.com

Use the access code: **01010000**

or call 833-367-5497

A representative will contact you to schedule a home visit and begin the process.

The Energy Savings Assistance Whole Home Program is funded by California utility ratepayers under the auspices of the California Public Utilities Commission (CPUC) and is implemented by MAROMA Energy Services through a contract with Southern California Edison (SCE) on behalf of both SCE and Southern California Gas Company (SoCalGas). This Program may be modified or terminated without prior notice and Program funds are provided to eligible customers on a first-come, first-served basis until Program funds are no longer available. Eligibility requirements apply. Customers who choose to participate in this Program are not obligated to purchase any additional goods or services offered by the Program Implementer. The trademarks used herein are the property of their respective owners. Actual savings may vary and will depend on numerous factors, including geographic location, weather conditions, equipment installed, usage rates and similar factors.
