# DATA SECURITY

Protecting your data is our top priority. We use advanced security measures to ensure that your information is always safe and secure.

- ◆ The document storage area is well protected.
- ◆ Access to our server is restricted to the only Manager, requiring authentication through an Administrator Password.
- ◆ All computers are password-protected.
- ◆ Various backup operations are scheduled to prevent data loss.
- ◆ We take extra precautions to protect our document storage area.
- ◆ Every workstation has anti-virus software installed, which checks for updates daily, performs quick scans daily, and has boot and full scans scheduled weekly and monthly, respectively.
- ◆ Anti-malware software performs quick scans twice a week on all computers. Circuit cameras cover our premises for monitoring purposes.
- ◆ The server and workstations are configured to lock after 2 minutes of unattended time, requiring re-authentication to unlock.
- ◆ Various backup operations are scheduled to prevent the loss of data.
- ◆ Users are not allowed to use personal email accounts, and access to various internet sites is restricted and controlled.
- ◆ Staff members are prohibited from using USB devices and mobile phones.

# METHOD-O-LOGY

## ***WORKING REMOTELY***

We utilize secure virtual technologies such as VPN, AnyDesk, Teamviewer & Remote Login to access your system and complete all necessary work on it.

## ***USING CLOUD SOFTWARE***

All we need from you is to provide your login credentials and supporting accounting information via our secure mailing system. Once received, we will accomplish the work and save it on the cloud.

## ***BACK OFFICE SYSTEM***

We create Cloud Drive (Google, One Drive, etc.) Data is to be shared through respective drives, we pass entries based on data at our office in QuickBooks/Xero and we share Backup files through such Drives.
