

# Protecting Idaho's Children

Join us for an informative session on the Idaho Internet Crimes Against Children (ICAC) Task Force, where we will provide an overview of our dedicated team and our mission to safeguard children from online exploitation. This presentation will cover our collaborative efforts among law enforcement, educators, and community organizations to investigate internet crimes against minors, raise awareness, and promote online safety. Learn about our proactive initiatives, partnerships, and resources available to help protect children and support families in navigating the digital landscape safely. Together, we can build a safer online environment for our children.
