

YOU DESERVE THE BEST SECURITY

DATASHEET QUANTUM SPARK™ 1500 PRO

QUANTUM SPARK 1500 PRO SECURITY GATEWAYS

Named Leader by Top Analyst Firms: Gartner® Firewall Magic Quadrant™ Forrester Wave™: Enterprise Firewalls 2022

Top Security Effectiveness: Leader with 99.7% malware block rate in Miercom NGFW Security Benchmark 2023

Al ML powered Threat Prevention: Protect networks and users from zero-day, phishing, DNS, and ransomware attacks

All-In-One Security and Connectivity: Optimize connectivity with integrated 5G, Wi-Fi 6 and SD-WAN for remote branch offices

Unified Management and Ops Efficiency: Increase protection and reduce TCO with a consolidated security architecture Industry's best security used by the world's largest enterprises, tailored to protect your SMB from cyberattacks.

Quantum Spark 1500 Pro NGFWs are the industry's first firewalls with integrated AI ML security and cutting-edge Wi-Fi 6 with 5G cellular. SD-WAN provides faster Internet connectivity, application performance, and maximum uptime. Managing Quantum Spark firewalls is easy via an intuitive web interface and a mobile management app.

SPARK 1500 PRO HIGHLIGHTS

| Next Gen Firewall | Threat Prevention | Interfaces |
|-------------------|-------------------|-------------------------|
| 1, 300 Mbps | 900 Mbps | 5G, Wi-Fi 6, LAN switch |

Advanced security, uncompromising performance

The Check Point Quantum Spark 1500 Pro security gateway family delivers enterprise-grade security in a series of simple and affordable, all-in-one security solutions to protect small business employees, networks, and data from cyber-theft. Models with Wi-Fi, and Wi-Fi with an embedded 5G modem fit seamlessly into your home and branch office networks.

Comprehensive, Industry-Leading Security

- Next Generation Firewall
- Site-to-Site, Remote Access VPN
- Application Control and Web Filtering
- Intrusion Prevention
- Antivirus and Anti-Bot
- Anti-Spam Email Security
- SandBlast Threat Emulation (sandboxing)

Part of the Quantum Cyber Security Family

R81 software for SMB increases performance and brings enterprise-grade security to small and medium size businesses. Centrally managed SMB gateways support:

- Unified access policy: firewall, application control, URLF
- Policy layers and sub-policies
- Acceleration of domain, dynamic and time objects
- Multicore VPN and VPN acceleration
- Smart Accel 30% performance improvement of low risk, high bandwidth apps

Wired, Wi-Fi 6, and Wi-Fi 6 with 5G Models

5G is an essential component of any enterprise wireless WAN, either as a primary or failover link connecting fixed remote sites or a mobile fleet of vehicles. The 1595 Pro supports:

- Dual SIM single standby (DSSS)
- 5G antennas: 1x main, 2x MIMO, 1x Auxillary
- Global coverage

Lower the complexity of managing your security

Check Point Quantum Spark management is designed to increase scalability, improve operational efficiency, and reduce the overall cost for your business. With Zero Touch deployment and pre-defined security policies, your business is secured in minutes. Manage security locally via a Web interface or scale management with a cloud-based Check Point Security Management service. A mobile management app enables real-time access to immediately remediate threats on the go.

Cloud Management

Quantum Spark cloud management enables service providers to provision security efficiently across all Check Point products and services from the Infinity Portal. Unified logs and dashboards enables Managed Service Providers to manage hundreds of thousands of Quantum Spark firewalls for their small and medium business customers so they can focus on growing their own business.

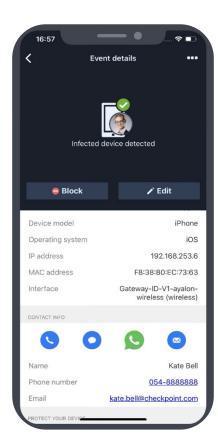

Security Management App

The intuitive mobile app provides real-time monitoring of network events, alerts you when your network is at risk, enables you to quickly block security threats, and configure the security policy for multiple gateways.

- Network security snapshot: view connected devices and any threats
- Real-time security alerts: highlights attacks and unauthorized devices
- On-the-spot threat mitigation: quickly block infected devices
- Network statistic reports and charts: gain insights on network usage patterns
- Manage multiple gateways: manage security in the palm of your hand

SPECIFICATIONS

1535, 1555 Pro (Wi-Fi model)

- 1 802.11 a/b/g/n/ac/ax Wi-Fi (option)
- USB port
- 3 5x 1GbE LAN switch
- 4 1x 1GbE WAN interface
- 6 Power button
- 6 USB-C Console port
- 12V power connector

| | | | |

^{1.} Includes Firewall, Application Control, URL Filtering, IPS, Antivirus, Anti-Bot, SandBlast Zero-Day Protection with logging. 2. Includes Firewall, Application Control, IPS with logging.

* Smart Accel is available on release R81.10 and above. Smart Accel must be enabled on Web UI and is currently supported on devices managed via Web UI or SMP

SPECIFICATIONS

1595 Pro (Wi-Fi, 5G model)

- 1 802.11 a/b/g/n/ac/ax (Wi-Fi 5G option)
- 2 8x 1GbE LAN switch
- 1x 1GbE copper/fiber DMZ port
- 1x 1GbE WAN port
- USB 3.0 port
- USB-C console port
- 12V power connector

| | Heat Dissipation (BTU/hr.) | 88.75 (non-Wi-Fi); 106.73 (Wi-Fi), 121.13 (Wi-Fi-LTE); 127.14 (Wi-Fi-DSL) | |

^{1.} Includes Firewall, Application Control, URL Filtering, IPS, Antivirus, Anti-Bot, SandBlast Zero-Day Protection with logging. 2. Includes Firewall, Application Control, IPS with logging. * Smart Accel is available on release R81.10 and above. Smart Accel must be enabled on Web UI and is currently supported on devices managed via Web UI or SMP

SUBSCRIPTION SERVICES

| See the table above for security capabilities included in the NGFW, NGTP and SNBT services packages. IoT and SD-WAN are ordered a la carte. | | |
|---|--|--|
| SERVICE | SERVICES HIGHLIGHTS | |
| Next-Gen Firewall (NGFW): segment networks and apply zero trust policy with IPS | Accept, prevent, schedule, and apply traffic-shaping based controls to application traffic 10,000+ pre-defined apps or customize your own application Protect vulnerable systems with 12,000+ IPS protections | |
| Next-Gen Threat Prevention (NGTP): Al Deep Learning DNS security with antivirus and anti-bot prevents threats | DNS security prevents Command & Control (C2) connections and blocks data theft through DNS tunneling Antivirus stops incoming malicious files and links in web, email, FTP and SMB content Anti-Bot detects infected hosts and prevents communications with external C2 servers Apply web and application control using 100+ categories or customize your own | |
| SandBlast (SNBT): comprehensive, multi-layered defense with sandboxing protection from unknown and zero-day threats | Average emulation time for unknown files that require full sandbox evaluation is under 100 seconds Emulation OS Support: Windows XP, 7, 8.1, 10 applications CPU-level, OS-level and static file analysis Maximal file size for Emulation is 15MB | |
| loT Network Protection: simple, effective, autonomous discovery and protection of IoT devices in minutes | Passive and active discovery of enterprise IoT devices with autonomous mapping to 200+ profiles IoT attributes include function, manufacturer, model, risk, confidence, VLAN, IP and MAC address Automatically creates and applies an inline zero-trust IoT policy layer Sees and controls over 1,500 IoT and OT protocols and commands | |
| SD-WAN: reliable and optimum network connectivity at the lowest cost | Link aggregation and link prioritization according to latency, jitter, and packet loss Advanced multi-path orchestration and steering for 10,000+ apps Sub-second failover for overlay and supported applications SLA monitoring and autonomous link swapping | |
