## Natural Topical Wound Healing...*Revolutionized*

- ✓ Benefit #1: A Safe and Highly Effective Solution to Complicated Wound Healing Protocols
- ✓ Benefit #2: Easy To Use 2- Step Protocol for All Ages and Skin Types
- ✓ Benefit #3: Synergizes with Current Wound Healing Technologies to Optimize Performance
- ✓ Benefit #4: Reduce Chronic Incidence by Improving Protocol Adherence for In-Clinic and At-Home Care.
- ✓ Benefit #5: No Preservatives, Proven Ingredients, Vegan, Cruelty-Free, Made in the USA
- ✓ Benefit #6: Clinically Tested High Quality Formulations

#### HOW DOES WOUNDCUR® TOPICAL WORK?

Injurious stimuli trigger enzymes that switch on over 200 genes responsible for the unwanted processes associated with wound healing in skin.

WoundCur Gel and Barrier Cream are topical preparations formulated with Allantoin, a naturally derived ingredient approved by the FDA for wound healing, combined with robust plant-based extracts known for cell regeneration. Synergies among these ingredients, many of which are already found in oral supplements, are behind the mechanisms that inhibit enzyme-driven Nf-kb transcription activation events, which drive the cascade of processes leading to compromised healing, pigmentation and scarring.

When used with current technologies as adjunctive therapy, WoundCur Topical has been clinically shown to be an effective, safe, and accessible complimentary protocol to improve:

#### COMFORT, APPEARANCE & RATE OF HEALING\*

#### WHAT'S NEW

WoundCur Gels (Original and All-Clear) and WoundCur Barrier Cream incorporate the benefits and ease of a Two-Step application: Hydrogel and Barrier Cream layers for optimal wound care into effective topical wound care and injury treatment.

We provide WoundCur Topical Products in wholesale quantities appropriate for hospital and clinic use:

- WoundCur Original and All-Clear Gel: 7 oz Pumps, 17 oz Pumps and 17 oz Gel Pouch refill
- WoundCur Barrier Cream: 7 oz Pump, 17 oz Pump, and 17 oz Cream Pouch refill
- Coming Soon: 3.4 oz (100 ml) Pump Sizes in All Formulations
