

ALLERGY AWARENESS BY ALLERGEN – 5 of 5 Pages

FOOD COLOR - Most of our base ice cream do NOT contain synthetic food color additives. If needed in our base, we may use natural plant-based color. Our blue is spirulina, our purple, annatto, red and green are also natural plant based. However, once we begin adding inclusions, those ingredients may in fact have synthetic food color. **If you have any sensitivity to added food color, please let us know when ordering.**
