

Randy Tack Email – August 15, 2024

I will reach back out to both companies early next week to check on the status of their proposals.

Subject: West side cell service

I know there has been an effort to improve cell service on the west side but I wonder if we can't make a renewed push. Do we have contact info for Verizon and T mobile? If so can we put together a letter from " the Mayor " pressuring them to improve service and offering to partner in identifying sites for west side cell towers. We need to emphasize that this is a public safety issue citing inability of our first responders to maintain contact in large zones throughout the west side.

I have received a lot of complaints about this so I feel we need to make another very public push on this.

Let me know your thoughts on strategy.

Randy
