

Application for Connection Municipal Sewer/Water

Requests to connect to the sewer/water system must be approved by Council before any work is started. Work cannot commence until approval in writing is given.

Service lines to the building shall be installed by the customer or his representative with prior approval of council.

Water

- Water supply line shall be installed at minimum underground depth of 5', unless otherwise approved by Council
- Water supply line shall be ¾ inch for single family residential unit or such greater size as may be approved by council for multiple residential units and commercial buildings
- The curb stop shall be installed by council as per the current tax structure (available on our website); and fee must be paid in full before the curb stop will be installed.

Sewer

- Sewer line shall be installed at minimum underground depth of 5', unless otherwise approved by council; and may be installed lateral with the service line for water supply in the same trench
- Sewer line shall be 4" PVC, or equivalent, for a single-family residential unit or such greater size as may be approved by council for multiple residential units and commercial buildings.
- The grade for a sewer service line shall be a minimum of 2.0% and shall be in a continuous straight line without sags or crests; but where a long radius bend is necessary, it shall be with the use of a clean out flue.

Service lines installed by the customer, or contractor, shall be subject to inspection by council prior to backfilling.

Any damage incurred to the main line during installation shall be the responsibility of the homeowner.

All tax arrears must be paid in full before connection is permitted.

Name:	Phone:
Location of Connection (Civic Address):	
Mailing Address of Property Owner: (if different from above)	
Name of Contractor/Individual doing the work:	

I hereby acknowledge that I have read and understand the above conditions, and I agree to comply with and adhere to them.
