## Revising a Draft for a Specified Purpose – Conclusion

**Topic: Music Festivals**

### Your Assignment:

*A student is writing an informative essay about the value of music festivals. Read the draft of the essay and complete the task that follows.*

#### **The Power of Music**

**By Elias Jones**

Music festivals have become a popular form of entertainment around the world. These events bring together thousands of people to enjoy live performances from a variety of artists. Whether they are held in large cities or rural fields, music festivals create a special atmosphere that many people look forward to all year. They often feature different types of music, from rock and pop to hip-hop and electronic, offering something for everyone.

One major value of music festivals is the way they bring people together. Festivals create a sense of community as people bond over their shared love of music. Friends often attend together, and even strangers can become friends during the event. This sense of connection is part of what makes the experience so memorable. People leave with not only great memories but also new friendships and a stronger appreciation for music.

Another benefit of music festivals is the exposure to new artists and music styles. While many people attend to see their favorite performers, they often discover new bands or singers they hadn't heard of before. Festivals typically have multiple stages and a packed schedule, so there's always something new to listen to. This can help smaller or lesser-known musicians grow their fan base and gain recognition.

In addition to entertainment, music festivals can have a positive impact on local economies. Large events bring in visitors from different areas, which means more business for local hotels, restaurants, and shops. Vendors at the festival itself also benefit by selling food, drinks, and merchandise. In this way, festivals can boost the economy while also providing fun and excitement for attendees.

*This essay is missing a conclusion. Write a conclusion that follows logically from the thesis/controlling idea.*
