ERREY S

WINTER COLLECTION

Joanna
di Foo

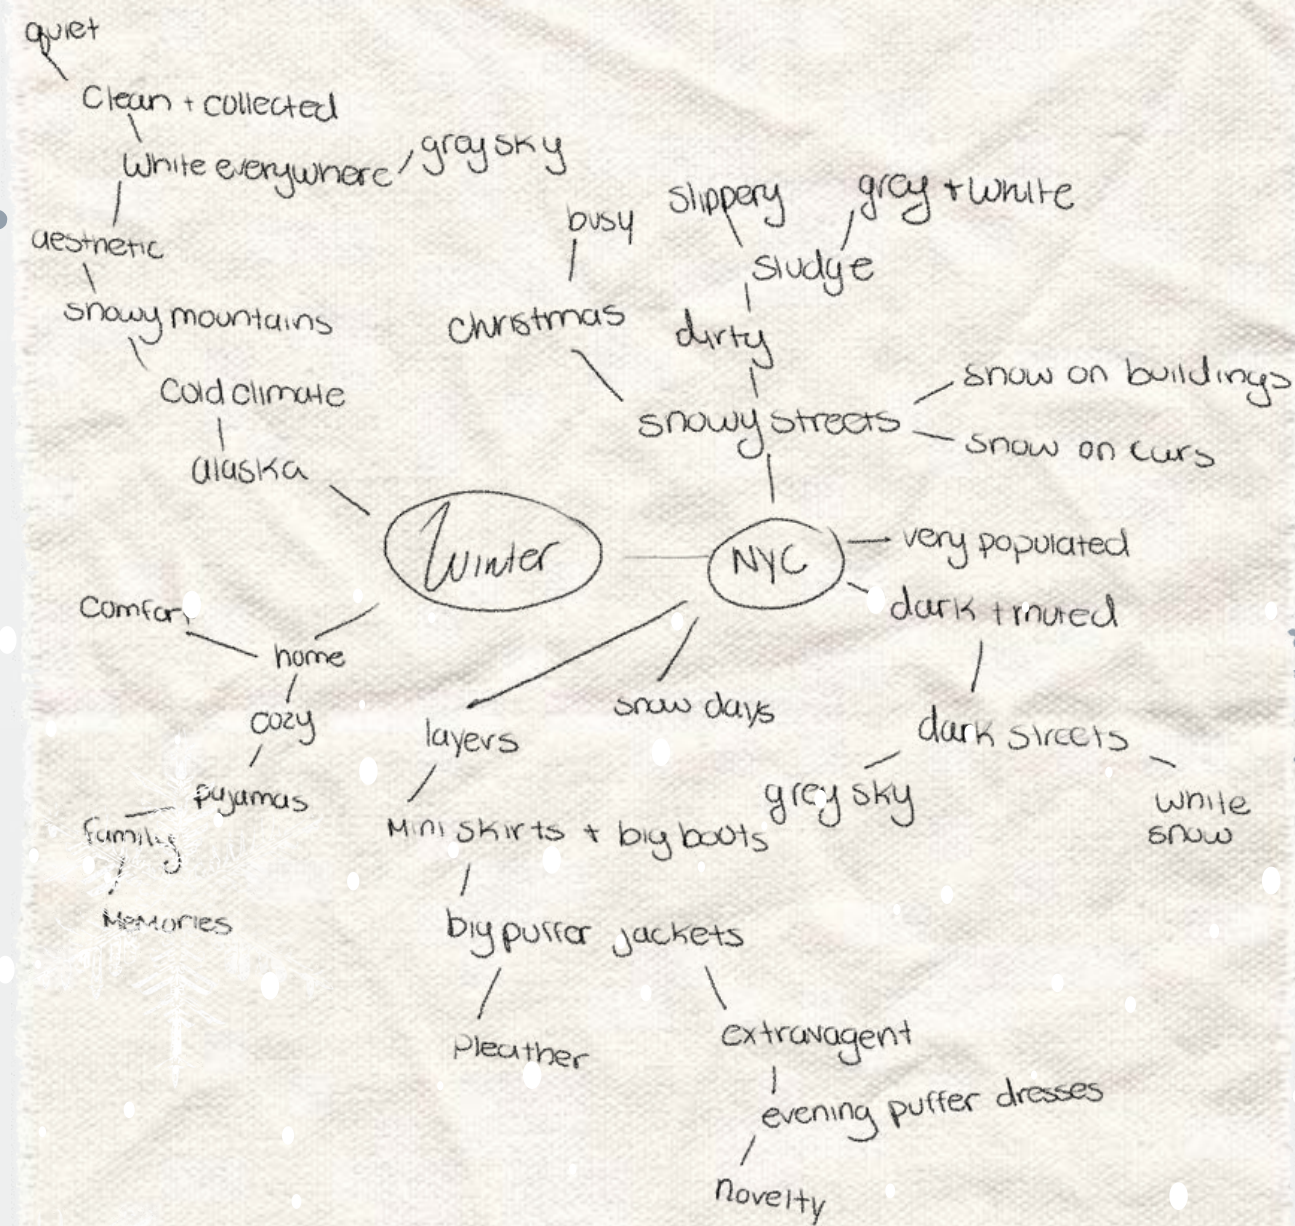

As a Winter Collection,

New York's
GREYS

The sights of Winter in the Big Apple are intended to be captured in "New York's Greys." A unique look is created by the snow falling on all of the city's buildings, streets, and landmarks. New York City changes from the fall colors of orange and yellow to the greys and whites of Winter as the snow starts to fall.
