FIGHTING FOR FUTURE GENERATIONS!

June, 2024

Hello El Paso County Voter,

Everything rises and falls on leadership! Our state has been failing in every category. The question is why? It is because we have people who are in positions of leadership, but they are not true leaders? Have they failed in voting for the best interest of, **We The People**? Elected officials who have been around for decades have become complacent and out of touch with the people. They tell us what we want to hear during election cycles, but their actions are opposite when we need them to vote for our values.

It is time to elect a new breed of leaders who have proven character and the courage to do what is right. True and tested leaders to fight for our values of life, truth, and the liberties that are put forth in our governing documents and **our Constitution**.

I am running for Senate because I have a sense of urgency that America will no longer be that beacon of hope for future generations. We must stand against the evil that has hit our country like a tidal wave. With God's help, we can raise a standard that will curtail the evil that has been pervasive in our country.

I heard Ronald Reagan give a speech when I was a child. His speech about defending this country has laid the foundation for how I will not backdown to threats but will fight to protect **future generations**. That impartation of his speech still resonates in my soul. Ronald Reagan fought in his generation, and I will fight in my generation.

I know the importance of relying on God for wisdom and guidance, unlike my counterparts who have served themselves and the voting record shows this. **I have learned that to do anything worthwhile requires hard work and endurance**. I have served in Colorado for 25 years to help encourage, equip, and empower our youth and families. I will carry this work ethic and my values into my role as your State Senator. Dealing with the lies, hatred, and the use of money to try to stop **Grassroots** citizens from running for office must stop. I remain steadfast to stay the course and I hope and pray that this course will lead to **VICTORY** to be your State Senator.

It is time to stop being deceived by gimmicks, tricks, and schemes. It is time to take responsibility for where we are as a city, county, and state. It is time we roll up our sleeves and get into the fight to protect future generations with our voices, values, and votes. Join me in this fight so that we can pass the baton of life, liberty, and the pursuit of happiness to future generations. **Vote for Rex Tonkins Senate District 10 - June 25, 2024 - my name is the first on the ballot.**

Sincerely,

Rex Tonkins
