To Whom it may concern

**RE: SEIFSA'S B-BBEE CONSULTING SERVICES RECEIVED FROM LK CONSULTANTS**

We are writing to commend the B-BBEE Advisory and Consulting Services that the Steel and Engineering Industries Federations of Southern Africa (SEIFSA) received from LK Consultants during FY 2021-2022.

Before entering our partnership with LK Consultants, SEIFSA was achieving a B-BBEE Level 4. After a series of internal consultations, it was agreed that the Level 4 rating was not an accurate reflection of the organisation's status. LK Consultants, working in collaboration with SEIFSA, concluded that SEIFSA's could indeed achieve a far better B-BBEE level status based on the various initiatives that were implementing during the period under review. Their in-depth understanding of the codes and expertise allowed for the verification preparation and verification to conclude smoothly.

Since the assistance and appointment of LK Consultants, SEIFSA has achieved a B-BBEE Level 1. LK Consultants conducted themselves diligently and dealt with our verification requirements professionally.

We have since appointed LK Consultants to assist SEIFSA in maintaining our proud B-BBEE level status and have entered into an Alliance Partnership Agreement whereby SEIFSA has no hesitation in recommending LK Consultants to the industry. We are confident that LK Consultants will be able to assist your organisation in maximising its B-BBEE score.

Please feel free to contact us on (011) 298-9400 should you require any further information.

Yours sincerely

**Lucio Trentini,  
Chief Executive Officer**
