

## INTRODUCTION

It is our general purpose as an African American owned firm to uplift our community as a whole by educating and cultivating the arts through entertainment.

The Rocky Horror Picture Show (RHPS) was released on September 25, 1975, with music and characters that feature androgynous themes. EarlOrrin Productions, LLC produced the first all African American live shadow cast production of RHPS.

Chocolate Covered Rocky Horror (CCRH) features live vocal performances, innovative choreography, crowd engagement and participation, bringing another dimension to the Rocky Horror shadow cast experience.

Since 2015, CCRH has been a tribute to the queer experience while exposing minorities to liberating art forms.

I am a graduate of the University of Maryland, College Park, with BA in Studio Arts. My creativity is ignited by the desire to bring people together, educate and positively influence American cultural. Rocky Horror gives me the opportunity to do just that. In addition to speaking directly to my community regarding social issues we face on a daily basis, I open up doors for community engagement and discussion surrounding BIPOC and LGBTQAI+ issues.
