

Setting up the Air Bed at the Cabin

1. This is our preferred space for the air bed (air bed in closet, pump in wardrobe).
2. Put the foam mattress on top (foam mattress by wardrobe).
3. Cover the foam mattress with the tan fitted sheet (may already be done).
4. Put the grey fitted sheet over top of the now covered foam mattress.
5. Add the flat sheet over top of that and the comforter (from the bedroom closet).
