

Shop Notes

Access

Whether you have booked one cabin, both cabins, and/or the shop, the keys will be made available to you the day that you have paid to use those buildings. We have a lock box inside the main house that will be left out for you to access with the code we send you on the first paid day.

*If you have paid for the whole time, we will leave the keys hanging below our No Wifi sign inside the door.

The Shop

The shop can be a highlight of your stay. It provides a much needed, cool in summer / warm in winter / dry in all weather, place for your group to congregate.

It has been used as:

- The "quiet" area when filming
- The "kid" area for games, lego and shenanigans
- The "eating" area for family reunions
- The place for snacks to eliminate running in and out of the main cabin
- A perfect area for games, crafts, visiting and more

It can be a cool place for the summer, or once the fire gets going, it's a very nice place to warm up in the winter.

There is an extra fridge in there to meet all of your needs.

**** PLEASE NOTE:**

Before opening the big garage doors, ensure that the bolt has been retracted. We try to do this for you before you arrive, but please have a look in case we forgot.

If you have the benefit of using the shop, it is a perfect place to leave your garbage and cans and bottles at the end of your stay. Feel free to take advantage of this option.
