- Serving / Mixing Bowls
- Serving Trays
- Cheese Grater
- Colander
- Mix of Cooking Utensils
- Cutting Boards
- Knives (sharpened)
- Pizza Cutter
- Vegetable Peeler
- Egg Slicer
- Spatulas
- Serving Spoons/Forks
- Popcorn Maker
- Toaster
- Juice Containers
- Aero Press Coffee Maker
- French Press Coffee Maker
- Milk Frother
- Kettle
- Full complement of dishes
- Cutlery
- Wine Glasses
- Napkins
- Placemats
- Pot Holders
- Vegetable Oil
- Salt and Pepper
- A few other spices
- Coffee
- Tea
- Sugar
- Containers for leftovers
- Tea Towels / Dish cloths
- Dish Soap
- Vinegar (for cleaning)

Our oven works well, but it takes longer to heat up than we would like.

I have an oven thermometer so you can check the temperature before you start cooking.

I would say it takes 12-15 minutes longer to heat up than the indicator light would suggest.

We are happy to help you out with anything else that you'd like to know.
