

JAM SYSTEMS FENCE & RAIL Non-Prorated Limited Warranty

Who and What are covered by this Warranty

JAM Systems warrants to the original purchaser/homeowner that its vinyl fence and railing products will be free from manufacturing defects – including peeling, flaking, blistering, rotting, corroding – when subject to normal and proper use.

This warranty is for the lifetime of the original purchaser (and as long as the original purchaser is still living and retains ownership of the property), for all vinyl fences and railing products. Should any defect occur during the warranty period, JAM Systems will repair or replace, at its option, the defective fence or railing products. In lieu of repair or replacement, JAM Systems also reserves the right to refund the amount paid by the original owner for the JAM Systems fence or railing product and such refund shall fully discharge all obligations and liabilities of JAM Systems under this warranty.

In no event shall JAM Systems be liable or responsible for the labor charges or other expenses arising from or pertaining to the removal or installation of either the original or replacement product.

Should JAM Systems repair or replace a defective product under the terms of this warranty, the original warranty shall apply to the repaired or replaced fence or railing product, and will extend for the balance of the warranty period in effect at the time the material proved defective.

This warranty automatically terminates upon the sale of the property or death of the last of the individuals that owned the property at the time of installation.

This lifetime coverage offered by this warranty for JAM Systems products is applicable only to single family residences. In the case of fence or railing product material that is installed upon any other type of building or premises, the warranty period will be 30 years following the installation of the fence or railing.

Warranty Limitations

This warranty does not apply to decking.

This warranty does not apply to or provide protection against any failure, defect or damage resulting from events or conditions that are beyond normal exposure or customary usage, including but not limited to: * misuses, abuse, neglect or improper handling or storage; *improper installation; *use of accessories or other products which do not properly receive and/or secure JAM Systems' fence and railing products; *impact of foreign objects, fire, earthquake, flood, lightening, hail, hurricane, tornado or other casualty or act of God; movements, distortion, collapse or settling of the ground or structure on which the fence or railing product is installed; damage by horses or other large animals that may impact a fence in which they are enclosed ; discoloration or other damage caused by air pollution (including but not limited to metal oxides or metallic particles), mildew, exposure to harmful chemicals or normal weathering from the elements; or *any other cause not involving manufacturing defects in the material supplied by JAM Systems.

Normal weathering is defined as exposure to sunlight and extremes of weather and atmosphere, which will cause any colored surface to gradually fade, chalk, or accumulate dirt or stains. The severity of any condition depends on the geographical location of the fence or railing products, the cleanliness of the air in the area, and many other influences over which JAM Systems has no control. JAM Systems shall have sole discretion to determine, based on reasonable criteria, whether the fence or railing product is suffering from normal weathering.

Distortion due to exposure to heat sources, including but not limited to building or pavement heat build-up, outdoor grills, reflected sunlight from windows, doors and other surfaces.

Failure to provide reasonable, necessary maintenance.

Bowing of pickets.

Pattern or color variation on variegated products..

Any other cause not involving manufacturer's defect.

This warranty does not apply to any fence or railing product which has been painted, varnished or on which any other substance has been applied over the manufacturer's original finish. The homeowner/purchaser acknowledges and agrees that JAM Systems may, without notice to the homeowner/purchaser, discontinue or modify any of its products, including, without limitation, the style, size or color. JAM Systems shall not be liable in the event replacement material varies from the original product. If JAM Systems replaces any material under this warranty, it may substitute products designated by JAM Systems to be of comparable quality or price range in the event the product initially installed has been discontinued or modified.

Transferability of the Warranty

This warranty is not transferable, with the exception of the following circumstances: This warranty may be transferred only by the original homeowner/purchaser and only on one occasion, upon compliance with the following requirements. Within thirty (30) days from the date of the transfer or the real property, the original homeowner/purchaser shall deliver to JAM Systems (1) a written request for transfer of the warranty, (2) proof of the original purchase of the JAM Systems products, and (3) a \$100 transfer fee payable to JAM Systems. Failure to comply timely with each of the foregoing requirements will terminate this warranty and relieve JAM Systems of any further obligation or liability under this warranty. Time is of the essence. During the first ten (10) years after the date of the original installation of the products, a duly transferred warranty shall remain in full force and effect as to all products covered thereby. After such ten (10) year period, JAM Systems' responsibility and liability under a duly transferred warranty shall decrease by five percent (5%) per year. At no time, however, shall JAM Systems' responsibility under this warranty for fence and railing products be less than 10 percent (10%) of the original homeowner/purchaser's original purchase price for the material.
