

Endorsement for President of SMART Transportation Division

As Chairperson of GCA 505 and as an Alternate Vice President of the Transportation Division, on behalf of myself and our entire Committee, I proudly endorse **Jeremy Ferguson** for President of the SMART Transportation Division.

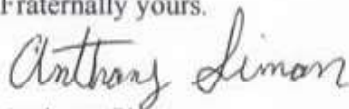

Through the years I have had the pleasure of working with Brother Ferguson on many issues. His strong ear and willingness to engage on the challenges of passenger rail in the north east made it clear that his range in the industry was second to none. He understands that bargaining Nationally for Freight railroads with Carriers is much different then bargaining with a State Agency. He provides the support necessary when needed, and shares his own experience to assist us in New York.

Jeremy's ability to bring people together, streamline resources and fight the fight when necessary is a quality we need to continue in our Union's efforts in maintaining strength in our industry. We need him to finish what he has built and take us into the future.

I strongly recommend that our entire Organization rally behind Brother Ferguson and send a clear message on who leads the way for SMART TD. Our membership on Long Island know Jeremy will have our back, as we will have his.

Vote Ferguson this August.

Fraternally yours,
