Dear Hiring Manager,

I would like to strongly recommend Greg Jablonsky for a position at your company.

My name is Sean Grieco and I'm the Infrastructure Manager at The Bonadio Group. I have over 20 years of experience in the IT field. Greg is currently my direct Supervisor and has been for almost a year.

In the short time I have worked with Greg, I have grown to greatly respect his leadership style. Greg is not the type of Manager to micromanage. He trusts his team to get the work done and to complete the plan he has laid out. Greg has a great skill of making sure the right people are in the right positions and we are setup to succeed. He consistently follows up to review our work and verify if it was successful or not. Greg also has the great ability of communication and building professional relationships. Many members of IT do not have those traits. However, Greg can work with everyone, from ownership to management down to entry level staff. Greg can bring those different parties together and get them set on a common goal.

When Greg was hired as our CTO, I was unsure what to expect. Having a new supervisor is always a daunting experience. However, Greg quickly came in and made his expectations well known. He expected our disaster recovery plan completed, tested and to be more detailed. He wanted responsibilities on the team to be documented and to have backups for each person. He made sure these were completed, and they were. He personally challenged me to grow in my career. This has greatly helped me and is something I am very much grateful for. I know wherever Greg continues his career, he will bring the same winning attitude and help that team grow like he has ours.

If you would like to discuss this further or have any questions, do not hesitate to reach out. You can contact me on my direct line, 716-250-7810 or email me at sgrieco@bonadio.com. I understand you have a big decision ahead of you so I would be happy to elaborate if needed.

Sincerely,

Sean Grieco
Infrastructure Manger
The Bonadio Group
