PERSONAL PROFILE

I qualified as a Clinical Psychologist in 2014. I have worked in a variety of services where I have supported people with complex difficulties with their emotional wellbeing. As a Clinical Psychologist I received training in Cognitive Behaviour Therapy (CBT). Since qualifying I have gained experience in multiple psychological therapies. I completed further practitioner level training in Eye Movement Desensitisation and Reprocessing (EMDR) therapy and Dialectical Behaviour Therapy (DBT). EMDR has become a therapy I have supported many people with since I have completed the training in 2020. I have also received additional introductory training in Cognitive Analytic Therapy (CAT) and Compassion-Focused Therapy (CFT), which I draw on in my therapeutic work. I have provided psychological therapy as a freelance therapist for numerous services since 2018. I work in both the NHS and the private healthcare sector.
