

LUPAIN FIRE DOME SYSTEM

You're working to build a better future. We're working to protect it.

Whether its the place you call home, the place you call work, or everything surrounding it, our innovative, environmentally friendly Fire Dome System Technology is specifically designed to keep your structures safe from the devastating effects of fire without putting your loved ones health at risk.

TREAT

PREVENT

MITIGATE

TESTING & ACCREDITATION

NON
TOXIC

We use water-based, eco-friendly solutions that are PFAS free, fluorine free, non-carcinogenic, and non-toxic to humans, pets, and the environment.

WATER
BASED

Treated surfaces and materials limit fire fuel sources, eliminate afterglow, provide heat transfer protection and rapid cooling to prevent ignition and extinguish flames.

BIO-
DEGRADABLE

ECO-
FRIENDLY

Third party tested, audited and manufactured by accredited ISO 17025 facilities, are code compliant, environmentally friendly
