TEA PARTY FOR TRUTH

ESSDRAS M SUAREZ/GLOBE STAFF

Members of the 9/11 Truth Committee reenacted the Boston Tea Party on its 233d anniversary yesterday by throwing boxes representing the 9/11 Commission Report from the Moakley Bridge over Fort Point Channel near Boston Harbor. The committee, which called its event the "9/11 Truth Tea Party," rejects the findings of the 9/11 Commission. The Boston Tea Party, a protest against British taxes, was held Dec. 16, 1773, at a site not far from yesterday's event.

MILITARY DRILLS THAT COINCIDENTALLY TOOK PLACE DURING THE MORNING AND DAY OF THE 9/11/2001 ATTACKS

1) **OPERATION NORTHERN VIGILANCE:** This was planned months in advance of 9/11 and ensured that on the morning of 9/11, jet fighters were removed from patrolling the US east coast and sent to Alaska and Canada, therefore reducing the amount of fighter planes available to respond in the east coast.

2) **BIOWARFARE EXERCISE TRIPOD II:** Rudolph Giuliani let some of the details slip in his testimony to the 9/11 Commission. FEMA arrived in New York on September 10th to set up a command post located at Pier 29 under the auspices of a bio-warfare exercise scheduled for September 12. This explains why Tom Kenney of FEMA's National Urban Search and Rescue Team, told Dan Rather of CBS news that FEMA had arrived in New York on the night of September 10th. This was originally dismissed as a slip of the tongue. Giuliani was to use this area as a command post on 9/11 after he evacuated WTC Building 7. Giuliani knew when to leave WTC 7 because he got advanced warning that the Trade Towers were about to collapse. "We were operating out of there when we were told that the World Trade Center was going to collapse," Rudolph Giuliani told Peter Jennings of ABC News. How did Giuliani know the building was about to collapse when no steel building in history had previously collapsed from fire damage?

3) **OPERATION VIGILANT GUARDIAN:** This exercise simulated hijacked planes in the north eastern sector which coincided with the 9/11 attack. Lt. Col. Dawne Deskins, NORAD unit's airborne control and warning officer, was overseeing the exercise. At 8:40am she took a call from Boston Center which said it had a hijacked airliner. Her first words, as quoted by Newhouse News Service were, "It must be part of the exercise." This is another example of how the numerous drills on the morning of 9/11 deliberately confused and merged drills with reality somehow coincidentally taking place during the same morning and day of the attacks.

9/11 Truth witnesses & advocates assassinated

Barry Jennings ---

Former NY Housing Authority Emergency Coordinator. On TV and Newspapers reporting multiple explosions in WTC building 7 at base of the building, implying explosives were used. His report was excluded from all 9/11 commission documents.

Died August 19, 2008, two days before the release of the NIST Report's first draft. Cause of death inconclusive.

Beverly Eckert ---

Her husband died on 9/11 in one of the towers. She was the co-founder of the 9/11 Truth advocacy group for 9/11 survivors & families. Met with President Obama one week before her death at the White House regarding 9/11 truth and her law suit against the Saudi & U.S. Government for complicity in the attacks.

Died on February 12, 2009 in the mysterious Buffalo plane crash, Continental connection flight 3407, exactly one week after her meeting at the White House.

Kenneth Johannemann ---

Janitor at the WTC towers. Reported feeling explosions in the basement and throughout the towers, including a massive explosion and burning victims at the base of one of the towers. All reports were left out of the 9/11 Commission report.

Died in September 2008 from suicide gunshot to head – suicide note was left claiming he was getting evicted and was depressed.

Michael H. Doran ---

9/11 victims lawyer who volunteered his services to help the victims of the 9/11 attacks receive compensation - targeted high profile figures /agencies for lawsuits.

Died on April 28, 2009 when his single engine plane crashed in Ohio.

Christopher Landis ---

Former Operations Manager for Safety Service Patrol for the Virginia Department of Transportation. Provided film photo collection to film producers of the conspiracy documentary *The Pentacon*. Included were unobstructed views of the Pentagon crash site and unseen pictures showing a possible cover-up.

'Committed suicide' one week after the film makers of *The Pentacon* interviewed him for the film. No further information released on his death.

Bertha Champagne ---

Babysitter for Marvin Bush's family (brother of George Bush). Marvin Bush was the director of Securacom (security company in charge of the WTC Towers) during the months leading up to 9/11, as well as on the Board of Directors of HCC Insurance Holdings, Inc., which insured many parts of the WTC towers.

Bertha was found crushed to death by her own vehicle in a driveway in front of the Bush family home on October 10, 2003.

Deborah Palfrey ---

Ran a prostitution ring that had top U.S. officials as clients. Former NSA official noted Palfrey's call girls were being chauffeured by Sherlington Limousines to poker parties attended by former CIA director and co-chair of the Joint 9/11 Intelligence Inquiry, Porter Goss. Deborah is on record saying "I have information that would have been of great interest to the 9/11 Commission. There's information that they have that would have been very important for the 9/11 Commission to know having to do with intelligence they picked up about 9/11 before it happened." Palfrey was on the news as well as Larry King live. She was recorded on a live radio show stating she is planning to expose the government in multiple ways in relationship to the 9/11 attacks. Palfrey stated three separate times on the radio show that she is not suicidal, incase she was killed, and will not let anyone buy her off.

On May 1, 2008 on CNN live on TV, police announced Palfrey was found dead hanging in back of her home calling it a suicide.

Major General David Wherley ---

Wherley was the officer who scrambled fighter jets to Washington on 9/11 as well as gave several other orders, which were not specified in the 9/11 report.

Died on June 22, 2009 when two commuter trains crashed into each other during the worst crash in the Metrorail system's 33-year history.

David Graham ---

Saw three of the alleged hijackers in Shreveport with a Pakistani businessman prior to 9/11. He went to the FBI with this information and nothing was done. Graham was trying to publish a manuscript about meeting three middle easterners in Shreveport, men he feared were plotting to bomb Barksdale Air Force Base. Graham wrote that he warned the FBI. Then after Sept. 11, he saw their pictures among the hijackers shown on television.

Found poisoned to death on September 17, 2006.

WEATHER MANIPULATION & CONTROL

H.A.A.R.P.

Officially, HAARP is a research station directed by the Air Force Research Laboratory's Space Vehicles Directorate in Gakona, Alaska, that opened in 1992 to gather data about the atmosphere and "radio propagation conditions." Their web site (www.haarp.alaska.edu) states that they are monitoring and archiving the naturally occurring variations with the sun's activities such as sunspots and solar flares.

HAARP is based on physicist Bernard J. Eastlund's U.S. Patent from 1987 titled "Method and Apparatus for Altering a Region in the Earth's Atmosphere, Ionosphere, and/or Magnetosphere" (US #4,686,605). Eastlund's patent is based, in part, on the works of Nikola Tesla, who first suggested that RF could transmit approximately one watt per cubic centimeter to any point on the planet without the use of wires. Thus, power can be generated on the ground and then sent through the air to the upper areas of the atmosphere miles above the surface of the planet.

Eastlund explained in his patent application that by influencing the ionosphere, methods of communication disruption, missile shielding and weather modification are possible. His second patent described the reflection of a second signal, using a previously "heated" ionospheric bulge, to distant locations on the Earth's surface.

Eastlund had been working with the Atlantic Richfield Company, holders of a massive reserve of natural gas under Alaska's North Slope. ARCO bought Eastlund's first two patents with the understanding that this new technology would make it possible for their natural gas reserves, too expensive to be piped from Alaska, to be converted to electrical energy on the north slope, and then bounced off the heated ionosphere to customers in remote locations around the globe.

Because Eastlund's "heaters" could elevate the Earth's ionosphere, his discovery provided the ability to control weather by altering upper atmosphere wind patterns. This is done by focusing high frequency radio transmissions on the ionosphere, lifting and heating it in localized areas which then alters wind patterns and ultimately weather conditions.

Unfortunately, the military had purchased Eastlund's two patents from ARCO and had given them to Raytheon, a military contractor. So there would be no civilian use for this new technology.

The Manila Observatory is a private non-stock, non-profit, scientific research institution that was established in 1865 by the Jesuit mission in the Philippines. With Federico Faura at its inception, it was engaged in the systematic observation of Philippine weather. It began serving typhoon warnings in 1879, and embarked on earthquake observations in 1880. In 1884, The Spanish government issued a royal decree formally recognizing the Manila Observatory as the official Philippine institution for weather forecasting.

The years after saw the Observatory branching off into other areas of scientific research and service. In 1885, the Observatory began its time service that greatly benefited merchant shipping. A seismology section was established in 1887, and in 1899, the Observatory ventured into astronomical studies.

Recognizing the importance of the work of the Observatory, the American colonial government established it as the Philippine Weather Bureau in 1901. For about 45 years, the Observatory remained active and famous in international expositions and scientific expeditions. The Institution continued to be well known for its accurate typhoon forecasts and scientific works in the field of meteorology, geo-magnetism and astronomy.

The Second World War brought almost irreparable damage to the Institution. During the battle of Manila Bay, the Observatory, with all its valuable instruments and scientific documents, was completely destroyed. After the war, the Observatory ceased to function as the Weather Bureau with the establishment of a distinct government agency for this purpose.

It was only in 1951 when the Observatory was able to resume its post-war operations in Baguio, initially confining its research to seismology and the study of the ionosphere. In 1963, the Manila Observatory transferred to the Loyola Heights campus of the Ateneo

de Manila University where it continued its seismic, geomagnetic and radio physics research while expanding into solar physics as well.

At the turn of the 21st century, the Observatory finds itself at the nexus of global concerns for environment and development. With its tradition of excellence and service in scientific research, the Observatory envisions itself as a vital partner in these critically global yet locally relevant concerns. Through its present research programs, the Observatory now actively confronts these new challenges through a science that must inform and guide the shaping of a safe and sustainable future for humankind.

2010 Manila Observatory

It is known that the current Black Pope (Jesuit General), Adolfo Nicolás S.J., was the Director of the East Asian Pastoral Institute at the Ateneo de Manila University, in Quezon City, Philippines, from 1978 to 1984.

Notice the following:

In the book "The Lost Journals of Nikola Tesla : Haarp - Chemtrails and Secret of Alternative 4" we read:

""HAARP publicity states that the High-frequency Active Auroral Research Program is mainly an academic project with the goal of changing the ionosphere to improve communications for our own good. However, other U.S. military documents put it more clearly - HAARP aims to learn how to "exploit the ionosphere for Department of Defense purposes."

The patents described below were the package of ideas which were originally controlled by ARCO Power Technologies Incorporated (APTI), a subsidiary of Atlantic Richfield Company. APTI was the contractor that built the HAARP facility. ARCO sold this subsidiary, the patents and the second phase construction contract to E-Systems in June 1994.

E-Systems is one of the biggest intelligence contractors in the world - doing work for the CIA, defense intelligence organizations and others. \$1.8 billion of their annual sales are to these organizations, with \$800 million for Black Projects (top secret projects – government classified)

E-Systems was bought out by Raytheon, which is one of the largest defense contractors in the world. In 1994 Raytheon was listed as number forty-two on the Fortune 500 list of companies. Raytheon has thousands of patents, some of which are valuable in the HAARP project.

The twelve original patents are the backbone of the HAARP project, and are now buried among the thousands of others held in the name of Raytheon.""

US Patents regarding weather control and/or modification

US Patent 4686605 – Method and apparatus for altering a region in the earth's atmosphere, ionosphere, and/or magnetosphere

US Patent 4999637 – Creation of artificial ionization clouds above the earth

US Patent 4712155 – Method and apparatus for creating an artificial electron cyclotron heating region of plasma

US Patent 5777476 – Ground global tomography (CGT) using modulation of the ionosphere

US Patent 5068669 – Power beaming system

Chemtrails

Chemtrails are different than 'contrails', which is the exhaust from a plane engine. Contrails disappear soon after a plane passes, the chemtrails stay for many hours and spread out in the sky over time. They are being seen and pictures/videos are being taken all over the world, documented by millions of people. Complaints and investigations have been reported on news stations for many years. The chemtrails seem to be used in conjunction with HAARP, as they are being found to contain metals such as barium and aluminum oxide – leaving many wondering what other chemicals are also included. Just another Illuminati project we are not suppose to notice.

The Evergreen Supertanker is not just limited to fighting fire. It will be a true utilitarian aircraft with the capability to configure to different applications on short notice. This multimission aircraft can support sensitive security and environmental missions. The aircraft's exceptional drop capabilities, loiter time and size make it an ideal tool to perform challenging homeland security missions, able to neutralize chemical attacks on military installations or major population centers, and help control large, environmentally disastrous oil spills.

In addition, the upper deck of the Boeing 747 provides over 200 square feet of space that could be assigned as a command and control center. EIA possesses an FAA exemption number 1870C that permits the carriage of up to five individuals that are not crewmembers in the upper deck. This area is capable of providing space for command and control components that would assist in sophisticated mapping, incident monitoring and video/communications downlink relay that might require additional personnel over and above the required crew.

Right to Know Hazardous Substance Fact Sheet

Common Name: **BARIUM**

Synonyms: None

Chemical Name: Barium

Date: September 2000 Revision: May 2009

Description and Use

Barium is a silver to white, metallic powder or solid. It is found in nature as *Barite* ore and is used in oil and gas drilling, in electronic tubes, and as a stabilizer for plastics.

Reasons for Citation

- ▶ **Barium** is on the Right to Know Hazardous Substance List because it is cited by OSHA, ACGIH, DOT, NIOSH, DEP, IRIS and EPA.
- ▶ This chemical is on the Special Health Hazard Substance List.

SEE GLOSSARY ON PAGE 5.

FIRST AID

Eye Contact

- ▶ Immediately flush with large amounts of water for at least 15 minutes, lifting upper and lower lids. Remove contact lenses, if worn, while rinsing.

Skin Contact

- ▶ Quickly remove contaminated clothing. Immediately wash contaminated skin with large amounts of soap and water.

Inhalation

- ▶ Remove the person from exposure.
- ▶ Begin rescue breathing (using universal precautions) if breathing has stopped and CPR if heart action has stopped.
- ▶ Transfer promptly to a medical facility.

ILLUMINATI / FREEMASON SYMBOLISM IS
ALL AROUND YOU...

IT IS JUST NOT NOTICED UNTIL ONE KNOWS TO
LOOK FOR IT

EMBLEMATIC STRUCTURE OF FREEMASONRY

MTV Studio - Yonge Street, Toronto

ALBERT PIKE – KKK – FREEMASON – ILLUMINATI CONNECTION

In the heart of Washington, D.C., there is a large statue and monument honoring Albert Pike.

Pike is said to be the most important founder of the Ku Klux Klan.

The immense, bearded figure is looming over a public square in the nation's capital. Why has it never been pulled down in that predominantly black city? It's because the general public does not know the connections. The statue is a tribute to the influence of Pike's organization. Albert Pike studied at Harvard, and later served as a Brigadier-General in the Confederate Army. After the Civil War, Pike was found guilty of treason and jailed, only to be pardoned by fellow Freemason President Andrew Johnson on April 22, 1866. The Ku Klux Klan, the Southern Confederacy, and the pre/post-Civil War secession movements were a single, continuous project.

At the head of this project were clearly the top Freemasons (leader in U.S. Albert Pike at the time) and other groups guided by the Illuminati. Albert Pike had visions that would help the Illuminati plan for world control, which he described in a letter that he wrote to Mazzini, dated August 15, 1871. This letter graphically outlined plans for three world wars that were seen as necessary to bring about the One World Order, and we can marvel at how accurately it has 'predicted' events that have already taken place.

One of the major Illuminati bloodlines, the symbol of the House Of Lorraine/Habsburg, the Cross Of Lorraine, has a long history of Brotherhood use. Indeed it is where the term "to double cross" (usually a negative aspect) derives. The Habsburgs are believed to be right near the top of the Illuminati hierarchy, perhaps more influential than even the Rothschilds. Pics: The Cross Of Lorraine. The Lorraine family shield. (pentagrams over the Tower of Babel to the educated viewer)

EU Poster

The Republican Party's logo was altered in the year 2000. The three 'stars' in the Republican Party logo were turned upside-down. The previous logo was identical except for having the 'stars' facing upright, as in the flag.

The medals above are the three different Congressional Medals of Honor given to soldiers. This is the highest medal that can be presented to a soldier still to this day. There is no explanation anywhere for why all three are a pentagram as their main symbol.

Monster Energy is an American brand of energy drink marketed and distributed by Hansen Natural Corporation (run by CEO Rodney C. Sacks) and is a NASDAQ listed company, of Corona CA. Monster Energy receives a large amount of recognition from its sponsorship of various sporting events. Hansen Natural Corporation announced a distribution agreement with Anheuser-Busch in the U.S. and Cadbury-Bebidas, S.A. de C.V. in Mexico. Hansen Natural Corporation has recently announced a distribution deal with PepsiCo Canada.

6 6 6

Each piece of the letter M in the Monster logo is the Hebrew letter 'vav'. Placing three of these letters together makes **666** – as 'vav' has the numerical equivalent to 6 as previously shown. Ironical that their official slogan seen on clothing and marketing campaigns is "Unleash the beast" and 666 is the mark of the beast stated in the bible.

Vodafone is a mobile network operator with its headquarters in Berkshire, England, UK. It is the largest mobile telecommunications network company in the world by turnover and has a market value of about £75 billion (August 2008). Vodafone currently has operations in 25 countries and partner networks in a further 42 countries.

The name Vodafone comes from **Voice data fone**, chosen by the company to "reflect the provision of voice and data services over mobile phones".

As of 2006 Vodafone had an estimated 260 million customers in 25 markets across 5 continents. On this measure, it is the second largest mobile telecom group in the world behind China Mobile.

In the United States, Vodafone owns 45% of Verizon Wireless, the largest American mobile telecommunications company.
