

A Continuum of Compassionate Care

Home Health

Our wide range of medical services include skilled nursing, laboratory services, disease management, home health aides, and physical, occupational and speech therapy.

Palliative Care

Supporting patients and families through serious illness is the focus of ALC palliative care. Our program emphasizes pain and symptom management and enhances the patient's ability to receive medical treatment and enjoy a better quality of life.

Hospice Care

Enhancing quality of life with loving care and attention is at the core of ALC hospice care. Our compassionate approach includes medical services, emotional support, spiritual services as well as music, massage and pet therapy to help both patient and family.

Caregiving

By providing nurturing, non-medical assistance with day-to-day needs and tasks, we help make it possible for seniors to live at home.

Safety Alert Device

MyPal4Life is a 3G device that connects your loved one to help at the push of a button. It features two-way voice and simultaneously utilizes Wi-Fi and GPS to locate both indoors and outdoors
