

A woman with long dark hair, wearing a white dress with pink floral patterns and white wedge sandals, stands on a stone ledge. She is smiling and looking towards the camera. In the background, the Eiffel Tower is visible against a cloudy sky. The scene is set in Paris, France.

What's The Energy Set Up?

A completely judgemental-free space.

All parts of you are welcome here; the sad, frustrated, angry parts as well as the happy, excited parts.

I've experienced the majority of challenges you can think of in the business world. I'm ready to tackle any obstacle with you no matter how big or small.

As for your unrealistic goals?

NOTHING is too crazy or out-of-reach. Your goals are from your soul and I will never allow you to settle for less than you're capable of. If anything I will encourage you to go even bigger!

My intention for every session is for you to take what is of value and to go away with exactly what you need.

Our focus will also be on becoming the person you need to become, to hold this new version of your life.

This includes but not limited to creating; new behaviours, habits, belief systems and navigating feelings that arise.

Get ready for rapid identity shifts!

The Specific Focus

Each week/month there will be specific intentions we make dependant on what blocks (if any) come up and on what stage we're at on the roadmap and what you want to achieve.

Let's talk numbers

Numbers, I love! I will never tell you it's greedy, you're chasing vanity metrics or I don't believe big number-goals are within reach for you. *Everything* is possible.

Can you get intimate with your numbers?

Money is a byproduct of the work we do. Numbers tell us a story and give us a metric to measure your growth with. We will be working on your money stories as this will be a part of your business results.
