

Founded in 2006, the CPIC Forum Charter brings together the government and industry Capital Planning community to provide professional standards, enrichment and educational opportunities.

Capital Planning & Investment Control (CPIC)

CPIC: 2 Day Course Description

This 2-day introductory course emphasizes an in-depth review of CPIC. Learn key tenets prescribed by the Office of Management and Budget (OMB). We will review the General Accountability Office (GAO) Information Technology Investment Management (ITIM) Guide's maturity model and life cycle. We will review the latest of the on-going budget guidance changes announced annually by the Office of Management & Budget (OMB). This course is recommended for those new to capital planning and investment management, or those seeking to attend for a review of new guidance annually.
