

A BRIDGE TO SUCCESS

RAPID COLUMN'S WORKFLOW:

01 | SHOP DRAWINGS & SCHEDULING

- We Estimate and Shop Draw your columns and Walls based on Engineer's Specifications and construction drawings.

03 | DELIVERY

- We deliver the columns or walls direct to site.
- Each column will be clearly labeled to avoid errors.

05 | STRIPPING & RETURN

- After concrete pour, the columns need to be stripped and returned to Rapid Columns for recycling and re-using on the next floor or the next stage of the project.

02 | PRODUCTION

- We commence the production of the columns or walls to the approved shop drawings.

04 | SITE INSTALLATION

- As soon as they are delivered, the columns or walls can be immediately lifted and installed in position.
