The 10/25 Paint Warranty
 Paints applied to the treated, engineered wood products used in our construction are self-priming, high build, and mildew resistant. Designed for excellent exterior performance, the finish is resistant to fading, blistering, peeling, cracking, and chalking. Additionally, we seal the nail holes on our buildings to ensure the paint warranty remains intact.

The 40-Year Metal Roof Warranty
 Color coated finishes applied on metal roofs will not crack, check, peel or lose adhesion.
