

What is the Democrats' Greatest Fear?

I sincerely believe the Democrats' greatest fear is an informed voter. I think everyone knows this to be true.

Our challenge is to decide the best way to present the truth to the voters to win them over to our side.

Here is what is happening in the Democrat Party that gives us hope.

- Governor Matt Meyers' endorsements that include candidates opposing sitting state senators.
- The Democratic Socialists of America infiltration of the Democrat Party.
- The Working Families Party's endorsements that are forcing the Democrat Party to take extreme positions.
- Groups such as Planned Parenthood and the Delaware ACLU that coerce even moderate Democrats to vote for extreme issues.
- Delaware's Democratic primary has increasingly become a front in a national battle over the party's identity.

The Democrat office holders have dishonored their position by:

- . Allowing intrusion into Girls' Sports
- . Enforcing measures to protect the transitioning of children
- . Abortion on demand even after viability
- . Changing Mothers to Birthing Persons
- . Making the Constitution Gender neutral at a cost to taxpayers
- . Robbing local jurisdictions of their autonomy

If you agree that the Democrats' greatest fear is an informed voter, here are two ways to help spread the word.

1. Through social media pass along the link to the Citizen's Guide to Delaware Public Policy. Here it is:

2. Sign up to participate in the launch of the 2026 Contract with Delaware (date and time to be announced).

Our goal is to reverse the psychosis that has become the standard for the Democrat Party.

This is a righteous fight and we MUST win it.
