

A Horizon Full of Joy

Kim, 17, is a creative teenager who is drawn to projects like painting, making bracelets, drawing, and other arts and crafts. She loves family parties and hanging out with her brother, and chemistry is her favorite subject in school. Navigating her treatments for sarcoma has required Kim to shoulder worries and challenges that most of her friends have not had to face.

Envisioning sun, waves, and happiness, Kim used her wish to discover the beauty of the Caribbean! After traveling to Miami, she and her family set sail on a seven-night Western Caribbean cruise. Time on the sea was just what Kim wanted, and her days were filled with a mix of family time and fun activities along with quiet time to soak in the peaceful vistas from the ship. She was treated to a VIP dolphin encounter which was a fun, memorable experience for her as an animal lover, and shore excursions enabled her to explore island life.

“We’re grateful for the excellent support we received from Make-A-Wish,” say Kim’s parents. Through your ongoing commitment to the Make-A-Wish mission, Kim and her family were able to catch their breath and enjoy bonding over exciting new experiences—experiences that helped them feel that amidst Kim’s health journey, the world still holds bright possibilities for them.
