

Ruby Rose's Disney Trip

Ruby Rose is a sweet, shy young girl whose hobbies include arts and crafts, playing outside, and coloring. Her favorite treats are grape lollipops and potato chips. Ruby has sickle cell disease, which brings with it episodes of pain and other unpredictable symptoms. She is brave in facing her medical challenges, but sometimes it can all feel like too much. The news that Ruby Rose could have a wish granted was just the happy opportunity she needed!

With thoughts of princesses, fun, and magic, Ruby Rose wished to go to Walt Disney World® Resort. She and her family traveled to Florida for joyful days full of memory making. Ruby loved being able to choose from so many exciting activities every day as she and her family explored all the Disney theme parks there. She kept her eyes out for royalty and met her favorite princesses, including Tiana, along with many other beloved Disney characters, and had a blast on many amusement rides.

Shifting gears from days full of medical appointments and the routines of daily life, Ruby Rose and her family were so grateful to be able to dwell in happiness together on her wish trip. Your commitment to making wishes come true is truly essential Make-A-Wish® Massachusetts and Rhode Island, and we thank you for bringing much-needed joy and togetherness to Ruby Rose and her family.

Thank You

Greg Keene and the 2024 Brewski Park Wiffleball Tournament Community
