

## *Laughter and Dancing in Turks & Caicos*

When Sophie was diagnosed with Hodgkin lymphoma, she drew on her sharp sense of humor to help her stay positive. She and her family love to laugh together, and the 17-year-old used her wish to provide all of them with an opportunity to soak up laughs and beautiful weather in Turks & Caicos!

Sophie's Make-A-Wish volunteer team celebrated her with gifts as she anticipated her wish trip. "We were so lucky and happy to meet Sophie's two amazing volunteers! We welcomed them into our home and they made Sophie feel very special and brought her favorite food, desserts, a cake, balloons, and a beach bag with things for her trip," shares her mom, Elizabeth.

The all-inclusive Beaches Resort in Turks & Caicos was the perfect setting for a special family vacation, which happened to also fall over Thanksgiving. "This was something Sophie had looked forward to for a long time. Seeing her smile, laugh and just so happy made everything 100 times better," says Elizabeth. "We all just let loose and enjoyed every minute soaked in the sunshine, danced our hearts out, and ate like queens!! And best of all relaxed on the most beautiful beach we've ever seen."

With your compassionate partnership, Sophie's wish surpassed her expectations, and truly uplifted her and her entire family. "So many moments were unbelievable. The best memories were made, that's for sure!!" emphasizes Elizabeth.
