

Finn's Big Catch

Finn, 15, is a fishing fanatic. Ever since he was little, he has been fascinated by fishing. He loves *Sharknado*, *Extreme Fishing with Robson Green*, and, of course, fishing with his family. For Finn, the focus that fishing requires helps take his mind off of the challenges he faces due to refractory epilepsy. When thinking about what to wish for, Finn shared, "I'd really love to catch a big fish." And he did, through his wish for a Martha's Vineyard fishing experience!

The Martha's Vineyard fishing community warmly welcomed Finn and his family. He spent two days on the water as part of the Martha's Vineyard Striped Bass and Bluefish Fishing Derby, where he won second place for catching a 3.78-pound bonito. Later in the trip, Finn reeled in even more excitement with a 165-pound brown shark, leaving everyone speechless. "Getting the shark was my favorite part because of the blisters on my hand," Finn said. Being able to enjoy some major fishing achievements on the water far from medical worries was Finn's biggest catch of all. Thank you for your support in enabling Finn to experience his thrilling wish.

Thank You
