

5-Year Valve to Valve Warranty

We proudly offer a **5-Year Valve to Valve Warranty** on our water filtration systems—giving you complete confidence in your purchase.

What's Covered:

- **Full replacement of parts and system components** for 5 years
- **Water quality guarantee:** If a water test shows issues, we'll send a flush kit
- If the flush kit doesn't resolve the issue, we'll replace the system*

Our priority is clean, healthy water for your home—no stress, no confusion.

*Annual Rejuvenation Notice

Depending on your local water quality, **yearly system rejuvenation** may be necessary to maintain performance. We have the product to sell to you if needed and we'll help guide you through this simple process if needed.

Installation Options & Warranty Eligibility

To qualify for warranty coverage, systems **must be installed using one of these approved methods:**

-  **With Our Install Kit - either DIY or with a Plumber:** Ensures correct fit and performance.
-  **Installed by a Plumber and Using Other Parts**
-  **DIY and Using Other Parts**

Systems installed outside our guidelines **do not qualify for warranty.**

Water Flow Troubleshooting

If you're experiencing low flow, we'll guide you through a quick **gallon jug flow test** to check system performance. This helps us pinpoint the issue before taking further action.

Replacement Process & Returns: If your system qualifies for replacement:

- A **new system is shipped to you**
- **Flush kit is sent first** if applicable
- You **must return the original tanks** using the provided shipping label
- Once returned, we **refund any eligible charges**

No returned tanks = no refund. We must receive the original tanks to process your replacement.
