

Medical Team Form Instructions – Current and Former Doctors

Please use the form on the back of this sheet to advise us who we should reach out to for your medical records.

Use the column on the left to indicate whether the physician is a current or former part of your medical care team so we know which records to ask for and so we can keep your care team on file as up to date as possible.

We've included a sample below as a reference. We appreciate you filling out this form to the best of your ability!

Once completed please either:

- bring the form to the office (make sure your name is on the form),
- or send it to our office via the Athena App or Patient Portal as message attachment.

If your care team needs to be updated at any time you can send additional physicians or updates via this form as well.

Your current care team can be found on in the myHealth section of your App.

Below is a sample only – please fill out your information on the next page
