# INTRODUCTION

**My name is Mike Trusty  
I am founder of Save and earn.**

**After years of struggling and procrastination, I decided I needed to get prepared for the future and start making a little more money to live on as inflation continued to get worse and worse. I started looking but all the noise on the internet, the unethical situations, the cost was too much just to start, not to mention monthly cost required just to keep earning commissions and I got nothing for it except a garage full of products I couldn't sell.**

**I finally was blessed to be introduced to a business by a trusted friend that got me started towards success, by luck I was in the right place at the right time.**

**At that point I decided to start my own business while I was building my future.**

**Learn even more about me [here](https://yousaveandearn.com/about-me)**

**<https://yousaveandearn.com/about-me>**

**Because I wanted a way for everyone to have a way to success without all the BS, (eliminating everything I went through) I decided to continue finding and joining every business that I thought would work for everyone.**

**After about a year and elimination of many I came up with 3 that I am sharing now and I will be sharing more in the future after I personally try them.**

**In this eBook I will be sharing the 3 that I believe is exciting. needed, helpful, cost efficient and little time to work.**

**I will be sharing my contact information because I believe in getting to know people that will be trusting what I have found and as altruistic for all.**

**How ever you are comfortable with communicating is up to you.**

**As we begin to communicate and you get information from me and the companies involved I believe you will be excited to get started. You won't dread sharing because we are here to help **SAVE AND EARN.****

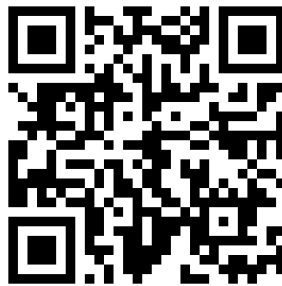

# Precious metals business

## A MUST FOR YOUR FINANCIAL PORTFOLIO!

**During uncertain times, such as economic instability or geopolitical tensions, investing in gold, silver, and other precious metals can provide a sense of security and stability to one's financial portfolio. These metals have long been recognized as stores of value and safe-haven assets, historically retaining their worth even when traditional currencies falter. Their intrinsic value and limited supply make them resistant to inflation and currency devaluation, making them attractive options for hedging against economic downturns. Additionally, precious metals often serve as a hedge against systemic risks and serve as a diversification tool, reducing overall portfolio volatility.**

**Moreover, in times of crisis, investors often flock to precious metals as a means of preserving wealth and mitigating risk. Gold, in particular, has been regarded as a reliable store of value for centuries, transcending political and economic turmoil. Its physical properties and universal acceptance make it highly liquid, allowing investors to easily buy, sell, or trade it across global markets. Silver, platinum, and palladium also hold similar allure, each with its unique industrial applications further bolstering their demand. Therefore, acquiring gold, silver, and other precious metals during uncertain times not only safeguards wealth but also provides a tangible asset with enduring value, offering peace of mind amidst financial turbulence.**

## NEXUS REWARDS (SNAP)

**Nexus Rewards, also known as Nexus Snap, offers a range of benefits that make it an appealing choice for consumers looking to save money and maximize value in their daily purchases. This program allows users to earn cash back on everyday expenses, such as groceries, gas, and online shopping, by simply uploading their receipts or linking their accounts to participating retailers. It streamlines the process of finding deals and rewards, reducing the need for multiple coupon apps. In addition, Nexus Snap often features exclusive discounts and offers from popular brands, providing users with even more opportunities to save. With its user-friendly interface and automated savings, Nexus Snap not only helps people stretch their budgets but also simplifies the way they manage their spending.**

# **And then there is the compensation plan!**

**A plan that is different than all others  
A plan that does not require recruiting if you  
do not desire and you could possibly make up  
to \$2000 a month**

**Cost is \$40 ONE TIME and \$9.95 a month for  
all those savings, earnings from the matrix.**

**When you visit my page at  
[https://www.nexusnap.com/index.php?  
site=mtrusty0998](https://www.nexusnap.com/index.php?site=mtrusty0998)**

**You will be amazed at all the savings you can  
get and if you choose the passive income you  
can earn just by sharing with everyone that  
likes savings.**

**Did I mention there is a free plan?**

**Check it out! this is just another way Save and  
Earn promises to help people without fear of  
tricks and pressure to sell you.**
