

# SEEDS FOR ECO COMMUNITIES PRESENTS

## KEY STEPS TO DEVELOP YOUR OWN SUSTAINABLE ECO COMMUNITY

1. Develop an adaptable governance structure with the community

2. Create a sustainable community vision that meets current and future needs

3. Set goals and objectives with indicators of progress

4. Develop a set of guidelines for sustainable living

5. Design and prioritize key activities as a group

6. Set timelines for implementation including contingency planning

7. Evaluate progress and revise path forward on an ongoing basis
